Description

- Able to peel 12kg of potatoes in 2 minutes - up to 220kg per hour
- Upright design with small footprint, ideal for medium and large operations
- High pedestal makes unit the perfect height to empty into a sink
- Lubricated, heavy-duty gearbox makes peeling operation smooth and reliable
- Dual position waste outlets and smooth cylinder base for quick, easy cleaning
- Long-lasting, rust-proof plate and replaceable liners for effective peeling
- Suitable for kitchens with three-phase power supply
- WRAS-approved Class A air-break and brass spray nozzle to prevent water escape

Full Description

With a small footprint and quiet motor, the energy-efficient SP12 (3PH) peeler is ideal for medium and large kitchens with a three-phase power supply. Offering the speed and convenience of pre-prepared products, it has the power to peel up to 12kg of vegetables in two minutes - up to 220kg per hour - saving space and time.

Simple and safe to operate, the floor-standing SP12 (3PH) has a high pedestal, allowing the unit to be emptied into a sink.

Constructed from rust-proof stainless steel, the SP12 (3PH) is robust and low maintenance, with a heavy-duty belt and pulley drive. Its corrosion-resistant cast aluminium plate has a thick grit layer to deliver effective peeling, whilst stainless steel cylinder liners can be replaced for longer life and lower cost. The smooth profile of the self-draining cylinder and the dual position waste outlets make the peeler hygienic and easy to clean.
