- Modular construction facilitates easy maintenance
- Thicker peeling plate delivers longer operating life
- Suitable for small to medium kitchens with single-phase power supply

## Full Description

The versatile, energy-efficient MF5 (1PH) is a multi-functional peeler which is ideal for small to medium kitchens, with a single-phase power supply. A variety of plate options means it can be used to wash and peel root vegetables, including potatoes and onions, wash mussels, clams and other bivalve shellfish, and spin salads.

With a thicker peeling plate for long operating life, the MF5 (1PH) is able to peel up to 111kg of vegetables per hour in 5kg batches making it a cost-effective and labour-saving solution.

Easy to operate with built-in controls, the unit has an interlocking lid and door for user safety. To ensure perfect results every time, the MF5 (1PH) has a perspex viewing pane to monitor progress, and an adjustable timer for accurate, repeatable peeling times.

The MF5 (1PH)'s modular construction, with flexible waste pipes and water inlets, allows simple installation and maintenance, whilst its latched lid ensures a water-tight seal.
