- Thicker peeling plate delivers longer operating life
- Suitable for small to medium kitchens with single-phase power supply

Full Description

The versatile, energy-efficient MF5L (1PH) is the ideal peeler for small to medium kitchens with a single-phase power supply.

With a carborundum liner and thick peeling plate for long operating life, the MF5L (1PH) is able to peel up to 134kg of vegetables per hour in 5kg batches making it a cost-effective and labour-saving solution.

Easy to operate with built-in controls, the unit has an interlocking lid and door for user safety. To ensure perfect results every time, the MF5L (1PH) has a perspex viewing pane to monitor progress, and an adjustable timer for accurate, repeatable peeling times.

The MF5L (1PH)'s modular construction, with flexible waste pipes and water inlets, allows simple installation and maintenance, whilst its latched lid ensures a water-tight seal.
