- Heavy-duty belt and pulley for simple and safe operation
- Self-draining cylinder with smooth profile for easy cleaning
- Long-lasting, rust-proof cast aluminium plate for effective peeling
- Suitable for kitchens with single-phase power supply
- WRAS-compliant Class A air-break and brass spray nozzle to prevent water escape

## Full Description

With a small footprint and quiet running motor, the countertop VQ3.5 (1PH) peeler is ideal for smaller kitchens with a single-phase power supply. Despite its compact size, it has the power to peel up to 62.9kg of potatoes per hour, in 3.5kg batches, saving operators both space and time.

Simple and safe to operate, the VQ3.5 can be easily mounted on a sink unit to save worktop space. An optional height-adjustable pedestal can provide additional flexibility.

Constructed from rust-proof stainless steel, the VQ3.5 is robust and low maintenance, with a heavy-duty belt and pulley drive. Its corrosion-resistant cast aluminium plate has a thick grit layer to deliver effective peeling. The smooth profile of the self-draining cylinder makes the peeler hygienic and easy to clean.
