- Available with optional LiftFri® automatic basket lifting system for failsafe frying
- Pressed tank for strength and durability. Radiused corners for easy cleaning. Hinged elements with two tilt positions for draining and cleaning

Full Description

Do you sometimes wish that your fryer could take on some of the hard work for you? If so, you'll love the adaptive cooking technology and 19 pre-set cooking programmes of the FriFri 9kW Vision 211 Built-In Fryer. It means you can have your most inexperienced staff operating it and still achieve perfect, great tasting fried food. Designed to be strong and durable, the sophisticated Vision 211's digital control maintains the oil to within a degree of your desired temperature, and also boasts adaptive cooking technology, which automatically adjusts cooking times to suit batch size. Ideal for both fine dining and quick service restaurants, the fryer has high power elements which reduce the heat up and recovery time of the oil, increasing the output of food, and also comes with a vertically coiled element for greater surface contact with oil, which delivers fast recovery and prevents the oil from scorching and degrading. Then there's the integral gravity filtration, which extends oil life by up to 75% and saves you money.
