### Description

The NT series bottle coolers, fitted as standard with energy efficient pure white LED lighting, digital temperature control and self closing lockable doors this series is one of the most comprehensive bottle cooler lineups in the UK. The under counter range is available in single, double and triple door in black, silver or stainless steel finish, and some models are even available in a low profile 850mm high design. The upright models are available in single and double door variations and feature ultra bright vertical LED lighting and mirror finish stainless steel interior to make them stand out against the crowd.
