Description

This Product is made in Europe.

The Sterling Pro SPC570 Triple Mode Freezer/Chiller is designed for use as a direct-selling cabinet. The triple mode function allows it to be used as a freezer for the sale of ice cream and frozen food, or as a chiller for the sale of bottled drinks and pre-packed fresh foods.

- **Chest Freezer**, frozen storage (-18°C to -24°C).
- **Chiller**, ideal for storing meat with hanger (-1°C to +1°C).
- **Fridge**, food storage & dump fridge for drinks (+4°C to +6°C).

As part of Sterling Pro's green range, energy efficiency is assured. Energy consumption is an essential consideration for refrigeration which needs to run 24/7.
