Description

The Vestfrost SZ248C is a tough and efficient commercial chest freezer ideal for all aspects of commercial trade. With a medium capacity of 9 cubic feet / 256 litres and a strong galvanised steel construction making it perfect for any tough commercial or outbuilding environment.

An ample temperature range of -18 ° to -24 ° is controlled by an adjustable thermostat and an external digital thermometer ensures ideal storage conditions. Other stand out features of the Vestfrost SZ248C include a counter balanced lid with light to ensure stock is stored and retrieved efficiently, with non-slip rubber feet to ensure stability.
